

The Epilepsy Foundation

The Epilepsy Foundation is the voluntary agency solely dedicated to the welfare of people with epilepsy and their families. The organization works to ensure that people with seizures are able to participate in all life experiences; to improve how people with epilepsy are perceived, accepted and valued in society; and to promote research for a cure.

Services commonly provided in the local community are information and referral, counseling, patient and family advocacy, school alert, community education, support groups, employment programs, emergency response training and camps for children.

Thousands of individuals and their families turn to the Epilepsy Foundation each year for support. The Epilepsy Foundation is funded primarily through individual donations from the general public. It needs your help to accomplish its mission. We believe that if we all give a little, together we can make a big difference in the lives of people facing epilepsy. Please consider bringing a small donation (\$10, \$20, \$50, or even \$100) and help us raise much needed awareness and resources to help the Epilepsy Foundation achieve its mission. Your generosity is greatly appreciated!

For more information about the Foundation, talk to the host of this dinner, visit www.efnj.com or contact the Epilepsy Foundation of New Jersey at (609) 392-4900.
